SOY MASTER

Best Selling Soy Milk in Bottle

SoyMaster Soy Milk(Non GMO Beans)

Soya is one of the oldest and most nutritious foods in the world. Soya has many nutritional advantages as it contains protein, fibre and isoflavones which have positive effect on cholesterol, bone density, menstrual and menopausal symptoms as well as preventing certain cancers. It is known to be a wonder food by the Chinese who believe it can cure kidney diseases, water retentions, common colds, anemia and leg ulcer. Studies have shown that soya can also reduce blood cholesterol level. Soya isoflavones combined with soya protein enhance blood cholesterol reductions as well as having a positive effect on menopausal women by reducing the risk of hot flashes. Improved vascular function, reduction of blood pressure antioxidant protection of LDL cholesterol and inhibition of platelet activation are the other known cardiovascular effect of soya and its constituent isoflavones.

BENEFITS OF SOYA (Non GMO BEANS)

• This is a premixed instant soya bean drink that is delicious and brings a host of health benefits.

• Rich in calcium for healthy bones and teeth, and to prevent osteoporosis later in life.

• Rich in protein, essential amino acids and calcium, iron, zinc, phosphorus, magnesium, B-vitamins (B1, B2, B6), Vitamin E, Omega 3 fatty acids and fibre.

• Isoflavones help some women alleviate menopausal symptoms such as preventing hot flashes.

• It is highly active organic beverage manufactured using whole soya bean without preservations.

• Contains fibre, unlike dairy milk, protein, unsaturated fats and is cholesterol free also Non-GMO.

• Rich in Isoflavones, a type of phytoestrogens with a structure similar to human estrogen that lower the risks of breast cancer, colon and prostate cancers.
